EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lilia Safonov, Reg. No. 45,967 on 01/22/2007.

The application has been amended as follows:

Amend Claim 1, (i), delete as indicated:

(i) providing a Graphic User Interface (GUI) for a system, whose behavior is being specified, said GUI [system] including at least one object[;] which has at least one property that does not change in reaction to an input unless change is described during playing in;

Amend claim 19, following line 1, insert

a processor;

Amend claim 39, following line 1, insert

a processor;

4. Claims 1, 3-8, 10-17, 19, 20, and 22-52 (to be renumbered in order) are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claim 1 (and similarly recited in independent claim 19), as noted in Remarks received 07/17/2006, page 14, 2nd paragraph, and page 15, paragraphs 2 & 4, Sherman, Werner, Ladkin, and other cited prior arts, taken alone or in combination fail to disclose:

“(b) receiving description of change in at least one property of at least one object of said GUI in reaction to at least one of said inputs; and

(c) changing said at least one property of said at least one object in accordance with said received description of change; and

(iii) automatically constructing at least part of a formal system behavior specification that corresponds to the scenario, based at least partly on said playing in.”

Art Unit: 2191

Regarding independent claim 20 (and similarly recited in independent claim 39), as noted in Remarks received 07/17/2006, page 14, 2nd paragraph, and page 15, paragraphs 2 & 4, Sherman, Werner, Ladkin, and other cited prior arts, taken alone or in combination fail to disclose:

“...said GUI including at least one object which has at least one property that does not change in reaction to an input except in accordance with said formal system behavior specification and (ii) playing-out a scenario by performing the following steps (a) and (b) as many times as required: (a) receiving description of at least one input; and (b) changing at least one property of at least one object of said GUI in reaction to at least one of said described inputs in accordance with said formal system behavior specification.”

Moreover, evidence for modifying the prior art teaching by one of ordinary skill level in the art was not uncovered so as to result in the invention.

Thus, all remaining dependent claims, claims 3-8, 10-17, 22-38, and 40-52, are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
